MID TERM EXAMINATION
B.TECH. PROGRAMMES (UNDER THE AEGIS OF USICT)
Second Semester, February 2026

Paper Code: BS-110**Sub: Environmental Studies****Time: 1½ Hrs.****Max Marks: 30**

Note: Attempt Q. No. 1, which is compulsory, and any two more questions from the remaining.

Q. No.	Questions	Max. Marks	CO(s)
1.	Explain the following:	(2.5 × 4)	
a.	How can we achieve Environmental Sustainability?	2.5	CO1
b.	What are the criteria for a place to be classified as a hotspot of biodiversity?	2.5	CO1
c.	Write a note on Carbon Credits.	2.5	CO1
d.	Define the term Eutrophication.	2.5	CO1
2. a.	Why Natural Ecosystems are more stable than Man-made Ecosystems? Explain an Estuarine ecosystem.	4	CO1
b.	Differentiate between Bioprospecting and Biopiracy.	3	CO1
c.	Write the sources, effects and control measures of land degradation.	3	CO1
3. a.	Explain the different devices used to control particulate contaminations from the atmosphere with the help of diagrams.	5	CO2
b.	Write short note on: (i) Radiation pollution (ii) Sanitary landfill	5	CO2
4. a.	What are Biogeochemical Cycles? Explain hydrological Cycle with diagrammatic representation.	5	CO1
b.	What are the different phases of Disaster management? What measures should be taken to mitigate flood disaster.	5	CO1
